"Play Pals"

Speech and Language Development
Pre-Literacy Enrichment
Social Skills Development

The "Play Pals" group is designed for 3-5 year old children who would benefit from a small group setting (6 or less) for developing important speech-language and social skills. **Using play-based therapy, children improve the following skills:**

AGE APPROPRIATE SOUND DEVELOPMENT

EXPANDING EXPRESSIVE LANGUAGE

MAINTAINING EYE-CONTACT

INCREASING PHONOLOGICAL AWARENESS

REGULATION OF EMOTIONS

FLEXIBILITY

COOPERATIVE PLAY

TURN TAKING ABILITIES

LITERACY READINESS

Our small groups provide a happy and secure environment where children are respected and nurtured. Our specialty is working with children who have been identified as:

Delayed receptive/expressive language
Easily Frustrated
Anxious

Distracted
Timid
Obsessive

These seemingly different traits often make it difficult to make friends and play cooperatively. The approach used at PCCD can help.
